Left-Handers Day
13 August 2002

THE LEFT-HANDERS CLUB SURVEY 2002/03

We are doing a survey on how left-handedness may give advantages or disadvantage in certain business, sports and social groups and whether that affects the life choices that left-handers make. Please use this form to obtain opinions from members of your group and then you can summarise them on the survey form at: www.left-handersday.com/survey

Group:

What we need to know from each person is:

- Name and whether you are **L**eft-Handed, **R**ight or **A**mbidextrous
- Whether you think there are more or less left-handers in your group than the 10% average
- Any reasons or ideas you have on why that may be the case

If anyone would like to receive the free Left-handers Club newsletters, please write your email address in the box at the bottom of this form. You can find out more about Left-Handers Day and the survey at www.left-handersday.com and you can see a load of information on left-handedness and left-handed products at www.anythingleft-handed.com

Please visit the web site to complete the short survey for any other groups that you are part of.

Name	L/R	More/Less	Reasons

Total number of people in the group: Total number of left-handers:
